Catalog of Cushion covers & Curtains  
**December 2020**

## About Us

The Dwell Decor is an extensive collection of textile based home furnishing products. It is a creative extension of our studio, The Dwell Theory. Our product line primarily includes curtains, cushion covers and tableware - placemats, table runners, napkins.

We design and make our products in collaboration with local artisans and NGOs promoting women empowerment. We also source uniquely designed products from all over India with trendy illustrations & graphic patterns, most of them being beautifully handcrafted by skilled artisans and in limited quantities.

Our aim is to explore the array of traditional styles that have been a part of India for generations and interpret them for a contemporary scenario of living. These creative elements will truly add beauty to our everyday spaces.
